

ABBOTSLEIGH CARE HOME IS AWARDED GSF ACCREDITATION

Posted on September 16, 2020

Following an inspection at Abbotsleigh Care Home in February, we are delighted to have been awarded a 'Commend' accreditation from The Gold Standards Framework (GSF), having completed the *Gold Standard Framework in Care Homes Training Programme*.

GSF training provides a practical, evidence-based approach to optimising care for all people nearing the end of life, given by front-line care providers. GSF focuses on quality care - quality improvement with training, quality assurance with standards of care and quality recognition with recognised accreditation.

Our amazing **Unit Manager Joy** has led the way in guiding and implementing **GSF at Abbotsleigh** and we are all very proud to have received such an important accreditation for the high quality of care we provide for those in their final years of life.

As a thank you to Joy for all her hard work, she received a beautiful **bouquet of flowers** and a **gift voucher**.

A huge well done to Joy and team at Abbotsleigh.
