

Abbotsleigh Care Home residents have a Kingfisher adventure

Our Abbotsleigh Care Home residents had a lovely outing on the Kingfisher boat recently.

We were thankful the weather had cooled and it was a delightful cruise along the Medway river.

Along the way, **we saw a very special boat docked, called Daphne** which was one of the smallest boats that went to the Dunkirk rescue mission in the second world war – what a little hero she is!

The **wildlife was very friendly** to us and the swans knew to come up to our boat for some food!

Two of our residents were able to become **skippers for the afternoon** and had a go at steering the boat – they each received certificate for their efforts, and so did our lovely new recruit Nicola.

Well done skippers!
